

AUTOMATING ACCOUNTS PAYABLE PROCESSES

InvoiceAnywhere® is a cloud-based solution that automates the entire Procure-to-Pay process and provides the most comprehensive supplier invoice management automation and payments solution. InvoiceAnywhere disrupts the traditional legacy Purchase Order and Invoice Management Processes, reducing their processing cost by up to 70%, which even for a small organization with only about a couple of hundred invoices a month can translate into substantial bottom-line improvements.

InvoiceAnywhere is a product of ExpenseAnywhere, a global leader in corporate Spend Management automation solutions. ExpenseAnywhere solutions help automate and manage accounts payable processes for businesses of all sizes from small businesses to large global companies, federal and state agencies, manufacturing and pharmaceutical companies. With offices in the USA, England, and India, we are just a call away!

P2P & Supplier Invoice Management Automation Solution

AUTOMATING YOUR BUSINESS WITH TOMORROW'S TECHNOLOGY, TODAY!

If your organization is like most other businesses, you are likely processing your vendor invoices using the centuries-old system – paper. A recent market survey has shown that about 96% of all invoices received for payments are paper-based; received via fax, regular mail, or as PDF documents by e-mail only to be printed and processed manually. The more paper you receive, the more people you need. It is an endless cycle of inefficient, error-prone, costly manual processes! Organizations using document management systems are simply scanning and archiving the invoices. These static electronic invoice systems aren't much better than the paper systems that preceded them.

In today's competitive economic business environment, organizations must focus on:

- Reducing their invoice processing costs and increasing efficiencies associated with invoice processing and approval.
- Streamlining the AP processes for adequate cash flow and greater control over payables, thereby maintaining liquidity and sustaining business operations.
- Compressing their invoice receipt-to-approval cycles for increased interest in early payment discounts.

WITH INVOICEANYWHERE YOUR ORGANIZATION CAN

- Reduce Invoice Processing Cost By 70%
- Reduce Processing Cycle Time By 80%
- Improve On-Time Payment By 75%
- Improve Supplier Satisfaction By 80%

DISRUPTING THE STATUS QUO OF MANAGING PROCURE-TO-PAY AND SUPPLIER INVOICES

The InvoiceAnywhere solution delivers the industry's most robust technology solution for total automation of Procure-to-Pay and supplier Invoice Management processes. The solution utilizes "Smart ART" our extensive proprietary OCR and machine-learning technology along with Artificial Intelligence to convert paper invoices into 100% accurate data. The solution incorporates 24+ interacting modules that deliver the most comprehensive Procure-to-Pay functionality for the management and payment of supplier invoices for the most demanding organization.

The solution is rich in functionality to empower reviewers with all the tools necessary for the complete verification, validation and payment approval for the invoices. The solution supports auto allocation of invoice line items; 2/3/4-way matching of the invoices to the PO's with ability to enter credit adjustments, if necessary, as well provides real-time geo-code based use tax liability.

100%
DATA ACCURACY GUARANTEED!

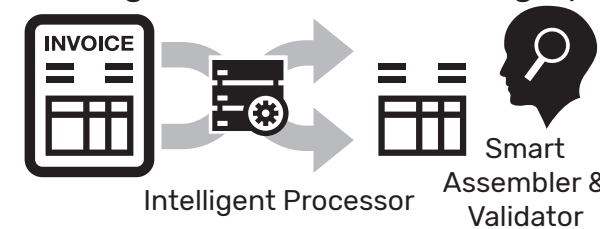

With built-in state-of-the-art technology, InvoiceAnywhere automates every step of the process from PO creation, to receipt of invoices, to approval and payment of those invoices consistent with your company's policies. The solution is highly configurable and delivers complete purchasing and invoice management automation through a single code-base. Thus, MNC or businesses operating in different countries can use the solution cost-effectively across their global enterprise, minimizing maintenance, support and training costs.

With InvoiceAnywhere Pay Services, vendors are paid as per your payment schedule. No matter whether they accept payment by check, EFT, cards or wire, our Pay Services supports them all!

Smart ART

Processing Documents @ Blazing Speeds

Market research shows that it can cost up to \$25 to process a single paper invoice. With InvoiceAnywhere, your costs can be reduced up to 70%. That's money in the bank!
